Broadband, anyone?

Wanted: Your input on this survey

Construction continues to advance on Roanoke Electric Co-op's $4 million high-speed internet fiber optic project. Is it cost-effective to extend broadband service to homes and businesses in your community? If you have not answered that question yet, now is the time to take this important survey.

Back to School

Co-op interns leave with valuable lessons

What did you do this summer? For three local college students, the answers come with some profound lessons-learned. They spent their summer as interns at Roanoke Electric Co-op, where they gained some interesting insights into what it really takes to keep the power on.

Co-op debuts new app for membership

At its recent Annual Meeting & Member Appreciation Day, Roanoke Electric Co-op unveiled its new app. Now member-owners can manage their account, make bill payments, check energy usage and receive important alerts - all while on the go! Check it out.

Solar Energy

Tapping into the power of the sun

It was not so long ago that a new renewable source of energy was planted alongside Roanoke Electric Co-op's headquarters. Today this solar farm is generating power, along with a special opportunity for member-owners to reap its many benefits. Read more.

Is money flowing out of your home?

Are you looking for an inexpensive, easy way to boost the energy efficiency of your home? To keep the heat outside during the summer or the cold air at bay during the winter, caulking or weather stripping around windows and doors to seal air leaks can save you both energy and money.
